

A threshold moment: Stepping into the 2020s purposefully

1. Your guiding concept

What is your resonating theme?

Who sees something in you that you don't necessarily see?

2. Your gift, another's need

What is your unique offering to the world?

What is the need that you can meet?

3. Defining moments 2010 - 2019

Audit the highlights and challenges.

Realistically appraise decisions and consequences

4. Leaving behind/Taking forward

Make a list:

Before < 2020 > After

5. Redefining 2030 – It's going to be amazing

In 10 years, as we look back, what do we want to say about this decade?

6. A new normal – Starting as you mean to go on

As we step into 2020: What are the

Decisions we will make?

Opportunities we will take?

Things we will forsake?
